ABOUT:

Uniquely urban... the music is easy, soulful, and interesting; a departure from the norm. This Nashville-based writer/producer sings every note... plays every instrument... and gives you everything he's got on this impressive debut CD! (CD Baby short description)

'WAYOUT' is the first full-length recording and album release by writer/producer, Lenny Hamilton Jr. Subtitled 'Portfolio Vol. 1', this release represents an effort to showcase the various creative interests of the producer.. much the same way a photographer might demonstrate with a portfolio of his current work. In essence, this record could be considered a big fancy demo CD or an extended business card. However, the process of making the album also provided an opportunity for Lenny to accomplish a life-long dream that began more than 25 years ago.

In the past few years, Lenny Hamilton Jr. has appeared on a handful of releases as a vocalist with Dalminjo for Papa Records, DeeJaykul via XtraSolar Records, DJ Aphreme on Next Dimension Music, and others. His recordings have also been featured on a soulful compilation along with artists Rahsaan Patterson, Myron, James Day & Audrey Wheeler to name a few. Today, Lenny is emerging as a relatively 'new' talent after 20+ years. As the founder of LtrainStudio Music, he is able to move forward within a more independent music environment and do the type of work he loves to do. With the 2010 release of his first full-length recording entitled 'WAYOUT: Portfolio Vol. 1', Lenny reaches a new level as a formidable writer/producer... working to become more visible professionally while being true to himself creatively.
